PetroVend

Solo & Pro

OPW Fuel Management Systems' PV Family of Fuel Control Solutions delivers secure, accurate and reliable fuel tracking for 24-hour unattended fueling operations of every size.

Anchored by OPW's state-of-the-art Fuel Island Terminals, Fuel Site Controllers and Fuel Management Software, the PV Family's PV Solo, PV Pro, PV Enterprise and PV Enterprise Plus packages provide a "right-sized" fuel control solution to meet the level of functionality needed by your commercial application.

The Future of Fuel Control

Nextec Intelligence™

Fuel Transfer Pumps

FILL-RITE.

The NX25-120 continuous duty fuel transfer series allows users to fuel all day with less downtime. It reduces long-term damage on wetted components while also improving suction lift. Its low profile, 120-VOLT NX25 SERIES TRANSFER PUMPS lightweight construction reduces installation time. Intelligent audible tones simplify the troubleshooting process by informing users when and where attention is needed. UL, cUL, CE Listed.

GPRO® V25 Series

Fuel Transfer Pumps

The GPRO V25 series is the next-generation modular vane pump. The V25 is engineered to deliver consistent high-pressure performance from a tough, hard-working modular vane pump. 12V DC motor delivers up to 25 GPM (94 L/min). It's fast and flexible; able to load up to 750 gallons of fuel uninterrupted, with a quick-fit modular system (4 bolts and an O-ring) that allows easy, leak-free attachment of filter, meter, or both. Extreme Weather Series (XTS) models available. Whether your business is agriculture, construction, or managing vehicle fleets, staying fueled up is critical and it must be a quick and dependable process.

Pulse Meter & XD Hose Reel

PULSE™
Fluid Management

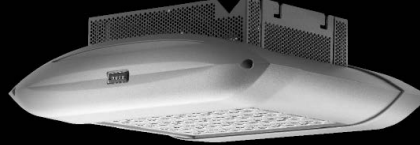

Fire-Ball™ 300 Pump

PULSE fluid management simplifies how forward-thinking service shops track and manage bulk fluids in real time- adding more transparency and accountability to drive productivity and profitability.

The CREE CXB Series

The Cree Edge™ Series

Cree has the industry's widest portfolio of lighting-class LED components optimized for outdoor lighting, delivering industry-leading lumen density, reliability and efficacy.

The CPY250™ Canopy

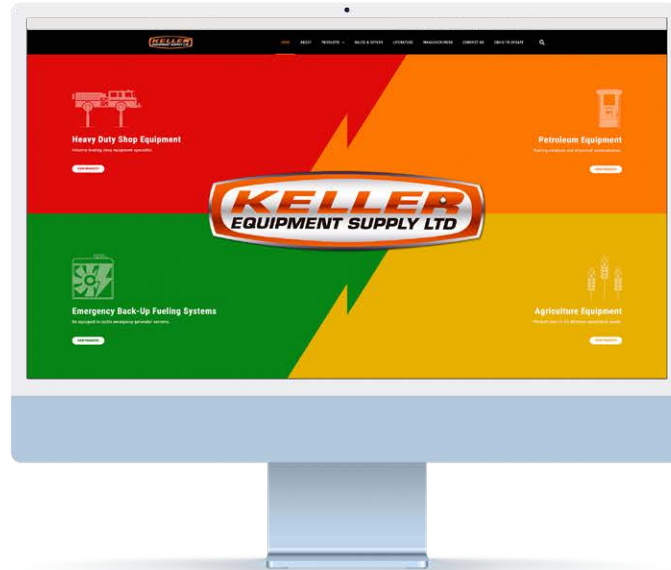

EnviroLube is a quicklube/vehicle service system comprised of manufactured fiberglass modules specifically designed for drive-through service in auto dealerships, quicklubes and heavy-duty facilities.

Environmentally friendly, the unique patented design helps prevent oil, grease, and other contaminants from leaking into the soil.
