PRODUCT GUIDE

ABOUT KELLER

KELLER EQUIPMENT SUPPLY is the Western Canadian “go-to” for fueling solutions and dispenser modernization. When it comes to traditional gas stations, commercial truckstops, company fleet or card lock fueling options, Keller Equipment is a proven industry leader.

KELLER EQUIPMENT SUPPLY LTD. is a private distribution firm focused on downstream petroleum and heavy-duty shop equipment.

In our commitment to select the finest and most notable manufacturers in the industry, Keller is recognized as a trusted advisor and preferred distributor partner across Western Canada.

We are committed to meeting the shifting demands of our customers and providing prompt customer service at all of our branch locations.

With our Head Office located in Calgary, Alberta, our presence in Western Canada consists of four stocking locations in Edmonton, Calgary, Vancouver, and Winnipeg, and sales offices in Kelowna and Vernon, B.C.

BEST IN CLASS

In order to bring you unsurpassed quality and reliability with our offerings, Keller Equipment Supply will only partner and supply with the “Best in Class” manufacturers in their field.

Wayne is one of the world’s largest suppliers of fuel dispensers, payment terminals, forecourt control devices, and point-of-sale solutions.

Franklin Fueling Systems

Franklin Electric Fueling Systems provides system solutions for the movement of fuel and monitoring of critical devices that protect human health and the environment while delivering the lowest total cost of ownership.

OPW delivers product excellence and the most comprehensive line of fueling equipment and services to retail and commercial fueling operations worldwide.

Acuity Brands is the North American market leader and one of the world’s leading providers of lighting and building management solutions.

WAYNE Select

Electronic Fleet Fuel Dispenser

Advanced technology delivers enhanced fleet fueling efficiency.

GETTING YOUR FLEET ON THE ROAD quickly is crucial to your bottom line which means fueling should be as hassle-free and fast as possible. The Wayne Select Series electronic fleet fuel dispenser keeps your operation moving at a rapid pace.

Technology that Drives Efficiency

In a class of its own, the Select electronic fleet dispensers are equipped with the same cutting-edge electronics, extra-large displays and latest metering technology as our premium retail dispensers. Combined with rugged construction, the result is long-lasting, high-performance solutions for both underground and aboveground storage tank fleet fueling applications. Common components with our retail dispensers provide additional benefits of readily-available service parts and technicians nationwide.

Decreased Fueling Time, Increased Fueling Control

The optional Wayne iX Fleet™ fuel control system provides 24-hour unattended access with full accountability of all fuel usage. The in-dispenser terminal simplifies installation and the user interface by moving access control directly to the point of fueling. Alternatively, the interface options allow connection to popular third party fuel control systems.

High Tech, High Performance

The Wayne Select™ electronic fleet fuel dispensers utilize the Wayne iGem™ software to allow smooth operability via user operating messages, transaction limit controls and simplified diagnostics. All models are equipped with electronic calibration for simple, precise reliability and advanced displays to communicate operating status.

WAYNE OVATION HS FUEL DISPENSERS

The Envy of the Truck Island Wayne Ovation® HS fuel dispensers add ultra-high fueling performance to the modern, user-friendly Wayne Ovation® fuel dispenser series – now you can have a consistent brand image and user experience between your islands and your high-volume truck islands. You can also have access to all of the advanced technology the Ovation® fuel dispenser features – leading secure payment technology, large VGA display options and media – to optimize user-friendliness and maximize sales.

PETROVEND Family

Fleet Fuel Management Systems

OPW FUEL MANAGEMENT SYSTEMS PV FAMILY

of Fuel Control Solutions deliver secure, accurate and reliable fuel tracking for unattended fueling operations. Not only to protect your fuel assets, but create operational efficiencies through integration and automation, streamlining your business and improving your bottom line.

PV Family

- 1 **PV100**
Basic, Entry-Level Fuel Control for Small Private Fleets.
- 2 **PV200**
Expertly engineered to be scalable to accommodate a wide range of unattended fueling requirements.
- 3 **PV300E**
An all-in-one insert-style unit with a 7-inch touch screen and alpha entry. Featuring sleek design and easy operation, the PetroVend® 300E (PV300E) terminal is engineered for maximum payment flexibility, the PV300E includes Tap-n-Pay options for contactless cards and ApplePay/Google Wallet transactions. Secure EMV processing direct from the terminal, eliminating point-of-sale (POS) or fuel site controller PCI updates from the scope.

WAYNE DX Fleet

Cloud-Based Fleet Management

DX Fleet® simplifies fleet fueling operations management. From a single cloud-based interface, you can determine user access rights, analyze transactions, view reports, and leverage business insights to improve business efficiency and reduce costs across your entire fleet fueling enterprise.

Revolutionary Fleet Management

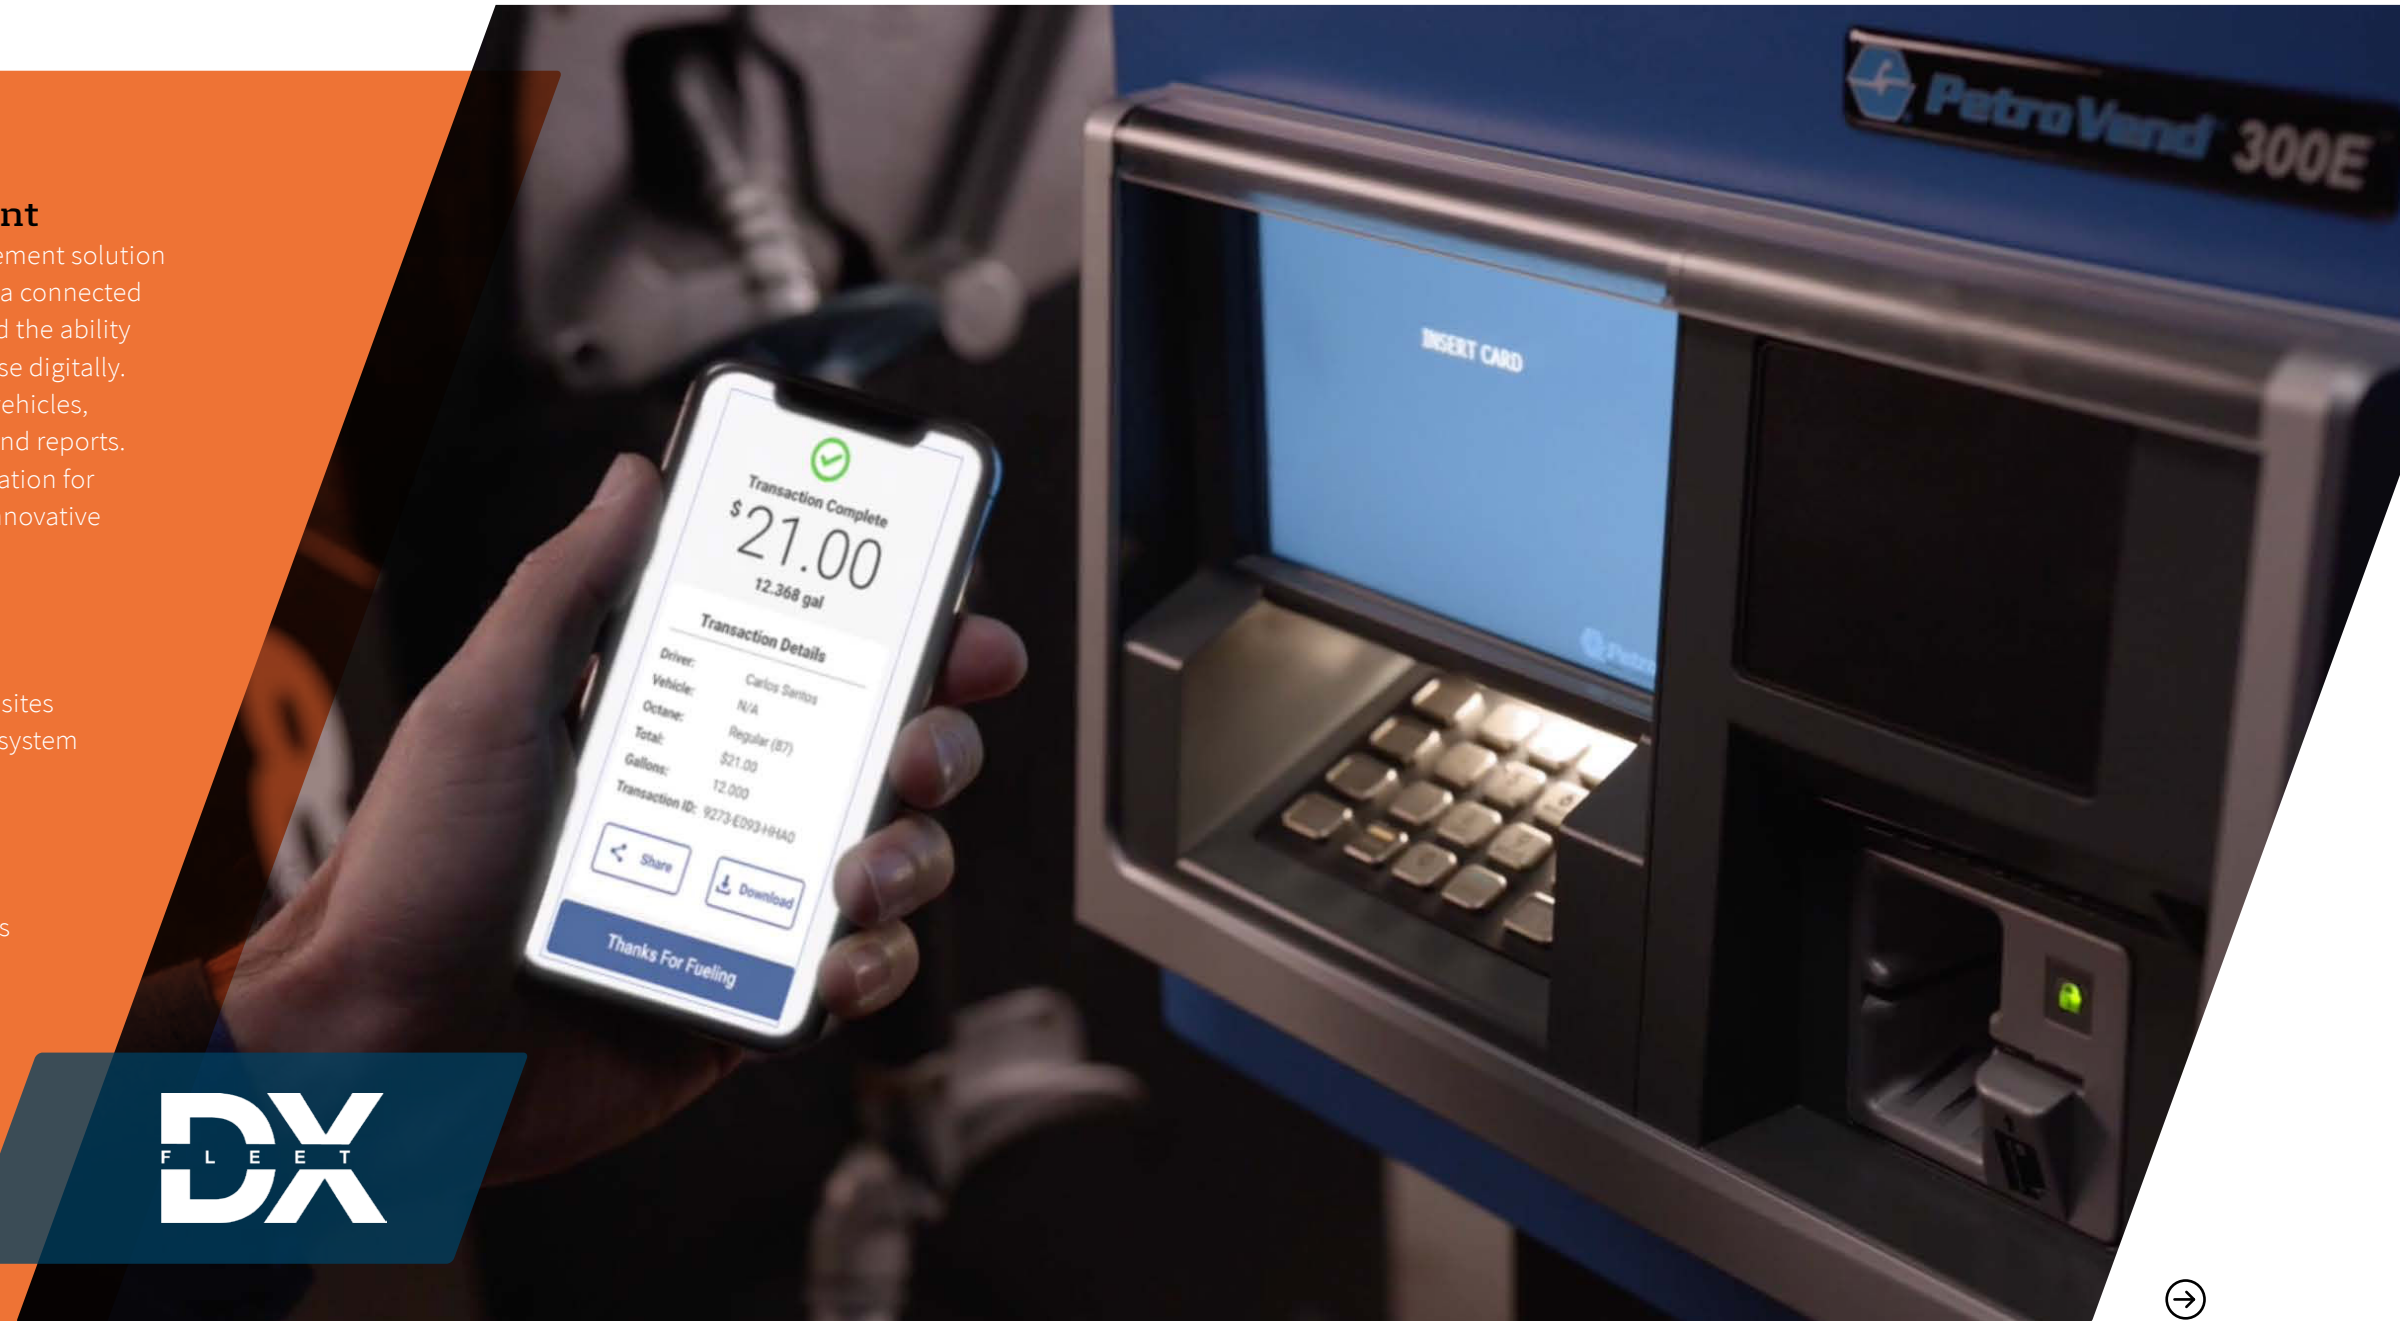

DX Fleet® is a revolutionary cloud-based fuel management solution that provides fleet owners, operators, and managers a connected experience through the use of interlinked devices and the ability to remotely monitor their entire fleet fueling enterprise digitally. DX Fleet® delivers real-time monitoring of your fleet vehicles, proprietary cards, transactions, alerts, notifications and reports. Additionally, fleet users can leverage a mobile application for fueling authorizations, which provides an easy and innovative alternative to standard fleet cards.

Reports in Real Time

Reduce the risk of fraud or delays with your fleet fuel sites through the use of real-time alerts on fuel inventory, system diagnostics and fleet transactions.

Move to Mobile

Provide an alternative to standard physical fleet cards with the DX Fleet® mobile application, which offers fueling authorization from a mobile phone device.

FlexWorks provides for end-to-end double containment, complete testing, monitoring and is totally accessible all the time.

FLEXIBLE Piping

The Next-Generation in
Underground Piping

FLEXWORKS flexible fuel piping solutions by OPW provide advanced capabilities that enable you to offer a higher level of protection, meet Next Generation compliance needs and help you control costs.

INCREASED PIPE FLEXIBILITY - the force required to bend the pipe has been reduced to facilitate piping layout. This makes installation quicker and easier, especially in cold weather.

PIPE WEIGHT - has been reduced to facilitate shipping and handling.

PIPE MEMORY - inherent pipe memory has been reduced significantly to facilitate connection of pipes inside sumps.

REDESIGNED PROFILE - enhanced leak detection performance.

ENHANCED KYNAR PIPE LINER - fluoropolymer chemical structure makes it dense and permeation resistant.

PROGAUGE

MagLink LX Family

+ PLUS

PROGAUGE MAGLINK LX PLUS console, comes with a brilliant 7" color display with intelligent "touch and swipe" technology. The MagLink LX Plus is a console designed to be scaled up. With base monitoring capabilities of up to 12 probes (coupled with patented multi-drop technology, which reduces installation costs), this console can be easily enhanced to add Continuous Statistical Leak Detection (CSLD), Electronic Pressurized Line Leak Detection (PLLD), relays or input connections, and up to 48 sensors.

x ULTIMATE

PROGAUGE MAGLINK LX ULTIMATE console, joins the already well-established MagLink LX family, alongside the MagLink LX Plus and MagLink LX 4 models. This console has more computing power, a large responsive touchscreen, and increased connectivity to probes and sensors. Simply put, the MagLink LX Ultimate is bigger and better. Precise, scalable, global, and connected.

EVO 200 & EVO 400 AUTOMATIC TANK GAUGES

provide highly accurate inventory management and containment monitoring for small to mid-size fuel systems. Both ATGs feature the capability to interface with probes and sensors in any combination up to 6 (EVOTM 200) or 14 (EVOTM 400). Their simple setup and operation, remote connectivity, and advanced security features protect your fuel system while keeping you directly connected to vital site data whenever, and wherever. The highly-intuitive, full-color, icon-based touch screen provides user-friendly on-site access to inventory, alarm, and compliance data, while the FFS PROTM Connect web interface provides remote access from any web device.

Franklin Fueling Systems

EVO SERIES

Automatic Tank Gauges

Depending on your location and requirements Keller Equipment Supply works with a number of above ground tank manufacturers to offer whatever you may need.

Contact your local Keller Representative for details on above ground tanks.

ABOVE GROUND

Storage Tanks

HANGING HARDWARE

Safety & Security

Automatic Shut-Off Nozzles

No Pressure – No Flow on the 7HB series ensures valuable fuel will not be wasted or lost to leaks.

Reconnectable Breakaways

The EZR Reconnectable breakaway ensures small accidents don't become catastrophic failures.

LIGHTING

LED Solutions

RSX LED Area Lights

Designed to provide one-for-one solutions for replacing HID or first-generation LED lighting. RSX delivers superior illumination, energy savings, quick delivery and easy installation all with the reliability you expect from Lithonia Lighting.

OSQ™ Series Area

Its slim low-profile design minimizes wind load requirements and blends seamlessly into the site, providing even quality illumination. Now delivering up to 62 percent more efficacy than the first generation.
